You sit there in the darkness as the conflict begins
I get the best of the hero do you think I'm going to win
It's disdain at the sight of me as I walk onto the scene
But, where would all the heroes be, if it weren't for men like me

A C D
I don't want to be the hero I want to be the man in black A
I'll fight until my final act cause I am the man in black , the man in black

A G A
You cheer for the hero, but I'll fight him to the end
When all hope has passed away that he could ever win
He'll make his escape from me as the climax begins
I'll never get the marquee or much credit at the end

A C D
I don't want to be the hero I want to be the man in black A
I'll fight until my final act cause I am the man in black , the man in black

C A C A
I'll never get the fancy clothes, a cool name, or teeth that glow
But, will I make the sequel, only the producers' know

I don't want to be the hero I want to be the man in black A
I'll fight until my final act cause I am the man in black , the man in black

A G A
You set there in the darkness, and you watch until the end
All the odds will truly favor me as the hero circles in
He'll fire all of his shots and miss, but still he's going to win
I'll never get a theme song or the girl in the end

I don't want to be the hero I want to be the man in black A
I'll fight until my final act cause I am the man in black , the man in black
